Brands who started before you!

TED^xEindhoven

I am glad to state that my new website developed by DigitalSpan is well-designed and user friendly, offering a positive experience for visitors. The sections are clearly defined, the layout is straightforward, avoiding clutter. All important information are easily accessible. Most importantly, it is visually appealing with a nice color scheme and correct fonts and images. They have maintained a consistent style throughout. I also saw that layouts easily adapt to various screen resolutions. I am super happy with my website!

Chaitali Sengupta
Founder OnPoint Communications

I recently had the pleasure of working with this amazing team of DigitalSpan to design my website, and I couldn't be happier with the results! From start to finish, their team excelled in every aspect.

Communication was top-notch. They kept the communication channel open at all times, continuously updating me, asking insightful questions, and offering helpful suggestions and tips. I always felt in the loop and confident that my vision was understood.

The variety of templates they provided was impressive, giving me plenty of options to choose from, ensuring that the final design perfectly matched my brand.

They also offer a range of services beyond website design, including logo design and more, which makes them a one-stop-shop for all your branding needs. What stood out the most was their willingness to train me on the website during the handover. This training was incredibly valuable, as it empowered me to manage and update my site independently moving forward.

The team did a fantastic job of translating my requirements into actions. They listened carefully to what I wanted and brought my vision to life in a way that exceeded my expectations.

Overall, I highly recommend DigitalSpan for their professionalism, creativity, and outstanding customer service. If you're looking for a team that truly cares about your success, look no further!

Helmi Tatanaki
